

## HEAVY DUTY CONVENIENCE

### Grade 80 | XHD J-Hook Chain Assemblies

7,100 lbs WLL (3,220 kgs)

- 3/8" Lightweight performance alloy chain
- Great for securing large equipment
- Stamped aluminum Working Load Limit tag
- Chain links marked per NACM standards
- Not for overhead lifting

Part Number	Length* (Feet/Meters)	Chain End Hardware		Package Type	Standard Carton Qty	UOM
50378-10-10	10' / (3.04)	15" J-Hook	Clevis	Bag w/UPC	2	Each
50378-11-05-2	5' / (1.52)	15" J-Hook	None	2 Pack Box w/UPC	1	Box
50739-10-05-2	5' / (1.52)	8" J-Hook	None	2 Pack Box w/UPC	1	Box

Note: Individual 5' chain assemblies inside the box are not UPC coded. An order unit of 1 = 1 box containing 2 chain assemblies with the UPC code on the box only.

50378-10-10

50378-11-05-2

No clevis on opposite end

50739-10-05-2

No clevis on opposite end

### Grade 70 | XHD Chain Assemblies w/G80 Clevis Hooks

6,600 lbs WLL (2,994 kgs)

- 3/8" High strength carbon alloy steel chain
- Zinc plated gold chromate for corrosion resistance
- Grade 80 clevis hooks made of heat treated alloy steel
- Designed for over-the-road transportation
- Chain links marked per NACM standards
- Stamped aluminum Working Load Limit tag
- Not for overhead lifting

Part Number	Length* (Feet/Meters)	Chain End Hardware		Package Type	Standard Carton Qty	UOM
50364-38-10	10' / (3.04)	Clevis	Clevis	Box w/UPC	1	Each
50364-38-20	20' / (6.08)	Clevis	Clevis	Box w/UPC	1	Each

19% more material in the neck for added strength

\*Note: Length dimensions refer to the chain section of the assembly only. For overall usable length, add 15" (38.1 cm) for the large J-hook, 8" (20.3 cm) for the small J-hook and 2.75" (6.9 cm) for each clevis hook where applicable.
