DOUBLE PALLET LOCK

LOWER DECK 747
80404 SERIES

ANCRA P/N	BAC P/N
80404-10	65B-60401-1
80404-10	65B-61262-1

LOWER LOBE 747 LOCK features fewer less costly parts than the O.E.M. part. The easily erectable lock heads are of aluminium as are the side plates. The lever operated release plunger can be locked with a recess head screw so that it cannot be removed without a tool. Rollers are removable for installation in the ball mat area.
