

INTRODUCING ANCRA'S NEW **PATENDED** CART SECUREMENT SYSTEM

NARROW PROFILE SHORING BEAMS UTILIZED TO MAXIMIZE USABLE SPACE FOR CARTS

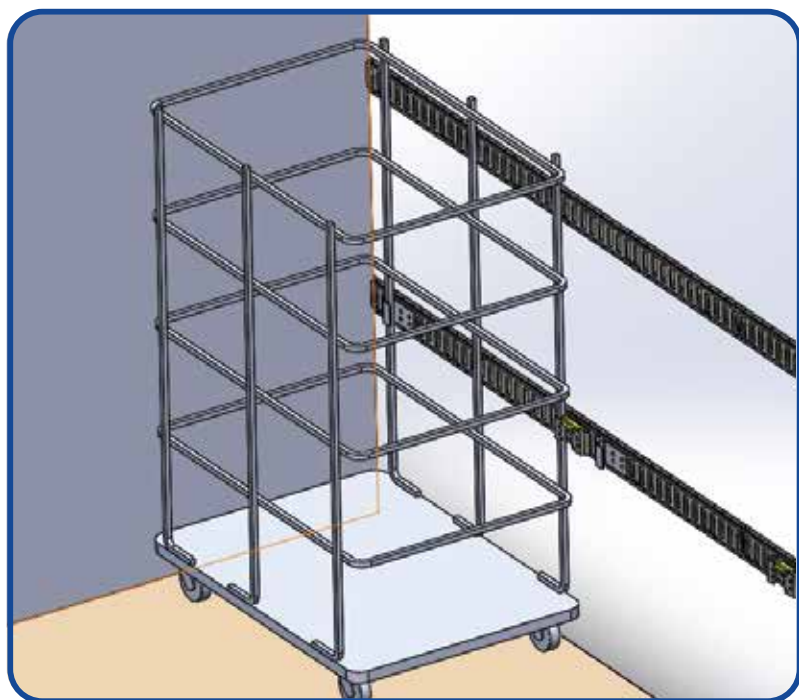

Use Ancra's Beam Release Tool to easily move beams (P/N: 49445-12)

FEATURES & BENEFITS

- *Beam spacing optimization ensures maximum number of carts loaded*
- *Safer and more secure – carts cannot accidentally release and roll out of rear door when opened*
- *Replaces use of straps*
- *Quickly secure a set of carts by moving beam down from its stored position*
- *Beams stay with trailer and store at ceiling*
- *Beams are easy to replace when needed*
- *Narrow shoring beams are used only for shoring, never decking*

INTRODUCING ANCRA'S NEW **PATENT PENDING** CART SECUREMENT SYSTEM

E TRACK MOUNTED BRACKETS UTILIZED TO MAXIMIZE USABLE SPACE FOR CARTS

Kit is designed to secure one cart on curb-side wall and one cart on road-side wall. Designed to fit specific cart geometry. Check with Ancra Cargo sales for details and options to fit other cart geometries.

P/N: 50869-11 Kit

FEATURES & BENEFITS

- *Each cart is secured individually with brackets that are secured to the horizontal E track and engage the vertical tubes on the cart*
- *Rear bracket has a rotating lock bar to lock the cart in place*
- *Safer and more secure – carts cannot accidentally release and roll out of rear door when opened*
- *Replaces use of straps*
