

# PAN FITTING with Collar Trim Plate

P/N 45545-10 without trim collar  
P/N 45545-11 with trim collar

shown actual size

**Designed for Low Profile  
mounting in trucks  
and cargo containers.**

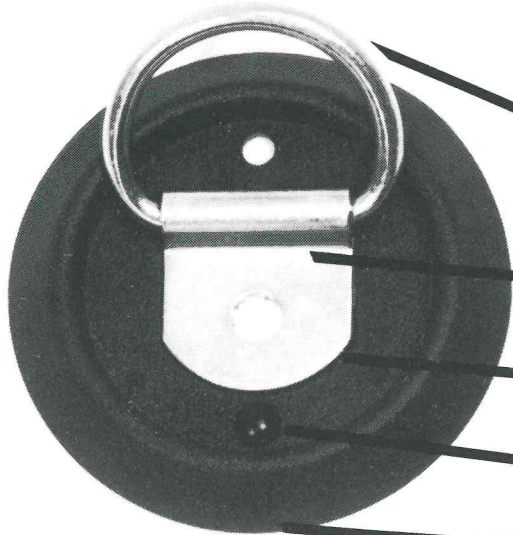

**NEW! IMPROVED!  
with many new  
exclusive features.**

**Fast, easy,  
“one piece” installation**

**Load Capacity, 1,200 lbs.**

The new design Pan Fitting features an interlocking recess which provides self centering of the ring in the trim collar and the special anti-rotation feature maintains the Pan Fitting in position for easy mounting. Durable and sturdy, trim collar manufactured of high quality corrosion resistant material, & steel components are zinc plated for corrosion resistance.

# PAN FITTING with Collar/Trim Plate

## FEATURES:

**STEEL RING** 1/4" diameter, recessed into collar trim plate corrosion resistant zinc plated and chromate coated.

**STEEL STRAP** is zinc plated and chromate coated for ultimate resistance against rust and corrosion.

**INTERLOCKING RECESS.** Provides self-centering of the strap and ring during installation.

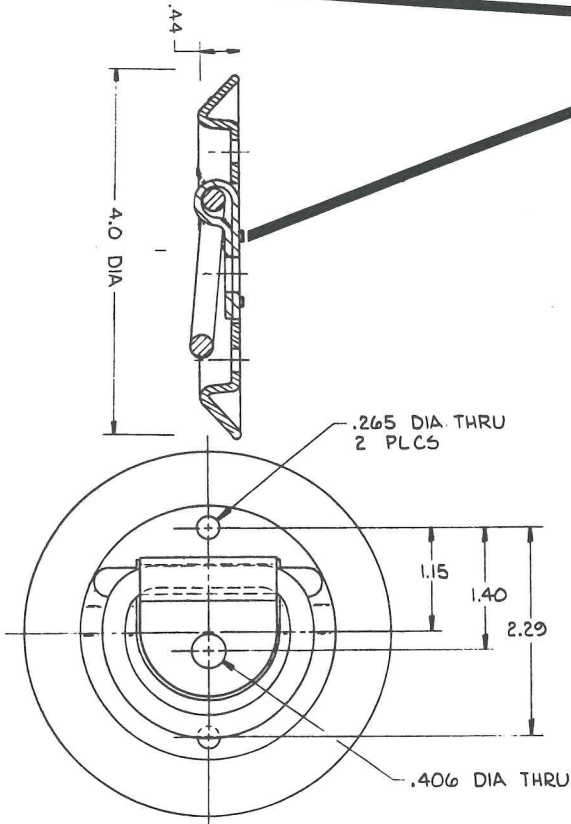

**RAISED BUTTON** on the trim plate, keeps the ring free for easy lift access.

**TRIM PLATE COLLAR.** Sturdy high density polyethylene with a textured grain finish.

**ANTI-ROTATION PROJECTIONS** assists in reducing pan fitting rotation during mounting operation.

### INSTALLATION:

For low profile mounting without cutting into plywood. Ready to install. Tape on the back of the assembly holds the entire unit in place for easy installation.

### SPECIFICATIONS:

Overall Diameter 4"

Assembly Height .44"

Positioning Hole Diameter .265"

Center Hole Diameter .406"

Load Capacity 4,200 lbs. *1600 lbs*

designed to use with Camcar fasteners in FRP application.
