

# CARGO BALL TRANSFER UNIT

**NEW! IMPROVED!** Less friction,  
easier cargo handling and  
longer life. Out performs  
all other units in both  
wet and dry conditions.

ANCRA CARGO BALL TRANSFER UNIT  
STANDARD UNIT

This new omnidirectional ANCRA Ball Transfer Unit moves cargo with less effort, thus reducing loading and unloading time. This light weight rugged unit also carries heavier loads and lasts longer. The secret is ANCRA's patented design that incorporates 25% MORE ball bearings. ANCRA once again has set the standards. . . for more information contact:
